19 June 1964

SUBSECT: Advisory Refort on Keview & Profosal No. 1699 Hyper Mila Company Monrovia, Cabifornia

To: Contracting Offices

REF: Audit Lieus Regnest No. 1770, dated 4 May 1964

1. In compliance with the referenced request, a review was performed of east data contained in the serviced proposal datel and received on 17 June 1964. The review consisted of in Thanking the supporting documentation to the Morried programmed, and menered hours and costs on the preceding contract GH- 5710. The final costs and price were negotiate on 25 Ma, 1964 for contract GH-5710.) The preceding contract was for thee HR 73 B Configuration plus spares, and this proposal is for six HR 738 Configuration. An attachment to the proposed nichealer additional molecul conto for a different type leas and related housing and change in continues in the net amount of & 16,660. There is also an additional malerial enex for a ver type carriege in the descent of \$ 7,010. The auditic was alresid that there are the only changes from the prior three units.

b. On the prior job for 3 unito, the contractor incurred a total of 9,400 hours of which approximately 7,000 were engineering and approximately 7,000 were shop-type hours. The engineering hours on this job Note - should be lower, since certain of the preliminary work on the prior job is applicable also to this effect. However, it appears that the shop-type hours proposed for this job are overstated by application has made no provision for possible learning.

c. The auditor has reduced the shoptype direct labor hours proposed from 16, 170 to 14, 670, or by 1,500 hours.

4. <u>Aviet Labor Rates</u>.

a. Direct labor rates proposed are as follows:

Tebruary March April May Month Year to Date

Mry oreshed Apenses to determine the same of the unusual increase in rate. These items are as follows:

(1) The month of many methoded a boliday, which have the double effect of merceasing overhead sepenses and decreasing the labor dollar base.

Tebruary, muster, and april arrayed \$3.0 yer month; but in may the purchues totalled \$2,000.

(3) The account, Outside Services, showed a charge for architecta' few related to a "one story technical Andding, Bldg. 'L'" in the amount of \$1,370.

(4) Charges originating in two lugineering departments in the rusin plant were made to Special Projects Pept. 31 oreshed in May in the total amount of 8 x,3x7. Copies of these authority

for Expendeture, Nos. 9500-90 and 9501-44 are Note - attached for your review.

> c. The first three items in paragraph to above applan to be nonrecurring types of items (scept holidays which will recur in July Reptember, November, and December 1964). Item b (4) appears to be questionable as to its applicability to the Aperial Projects Hept. 31, in view of the security aspects and the methods currently Sollared by Special Producte Slept. 31 in purchasing parte and san meteriale,

25X1A

d. Lased upon the above, it is the opinion If the auditor that the weehed rate for this proposed should not seed I died labor costs.

6. nesterial Costs.

a. The total amount of mulerial easts proposed for six unite, \$ 733, 748, appears to be excessive when related to the final total material costs incurred (and negotiated in the find price) on Contract GH-5710 for three unite, (spaces not included). Comparative date is shown below.

If the costs proposed, before alranges and new items, I which is not substantiated by the precid bill of mertainly) then some costs applicable to the prior job, an incentive-type contact, were recorded against other work of the contractor. If the costs recorded and negotiated on the prior contract are correct, then the costs proposed for this contract (SFP) are overstated.

EXPLANATORY NOTES

(Page v) v)

Note 1 - For purposes of this presentation, the auditor has reclassified the events of mirrors from No. 05 to Wo. 14 on the prior job, since the costs of mirrors on the current proposal are in No. 14.

Note 2-a. The contractor's representative stated

that the priced till of materials

Aid not include the costs of a

flew items of raw material which have

alow dollar value. This would account

for the difference of approximately \$5,000.

b. This priced bill of materials contains the

piccensed costs applicable to the change

in lens, ele,, and the new item - soft

cassings.
